

**ALUME CHANNELS™  
SERIES 500**

Liteco Alume Channel Series 500 is a Corner Aluminum Channel for Tape light from 6mm-12mm, the depth of the channel helps to avoid dark spots. Ideal for corner or on edge applications for under cabinet, cove, closet, and other areas for linear LED usage. Our channels help to distribute tape light work as a heat sink, also protect the tape light.
